[\[details\]](#)Patents Showing: View as: Patents 1 - 10 on **memory located outside processor or**[Sort by relevance](#) | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)Secure application card for sharing application data and procedures among a ...

US Pat. 5491827 - Filed Jan 14, 1994 - Bull HN Information Systems Inc.

Selector means within the access by type **memory** connects to the control ... The host **processor** 5 includes a **microprocessor** 5-6 which connects to bus 102 via ...Information exchange **processor**

US Pat. 4418382 - Filed May 6, 1980 - Allied Corporation

Thus, 15 control programs can be stored in each **microprocessor memory**, ... it makes to **memory located** elsewhere in the information exchange **processor**'. ...Circuit and method for reducing prefetch cycles on microprocessors

US Pat. 5623615 - Filed Aug 4, 1994 - International Business Machines Corporation

The heart of such systems is the **microprocessor** or central processing unit ... is a section of very fast **memory located** within the **processor** or **located** go ...Module comprising IC **memory** stack dedicated to and structurally combined ...

US Pat. 5347428 - Filed Dec 3, 1992 - Irvine Sensors Corporation

Another possibility is the use of the 10 stack as a "cache" **memory**, ie, a very high speed **memory located** very close to the **microprocessor**, which stores the ...System for network transmission using a communication co-**processor** ...

US Pat. 5642482 - Filed Aug 22, 1994 - Bull, S.A.

Consequently, the **microprocessor** CPU3 command of the access to the **memory** VRAM from the changes the control characters **located** at the head and foot MULTIBUS

...

Microprocessor providing an interface between a peripheral subsystem and an ...

US Pat. 4407016 - Filed Feb 18, 1981 - Intel Corporation

Ad- 50 dress development and **memory** response signals are generated by the **microprocessor**, rather than the peripheral subsystem **processor**, ...Hands-free, user-supported portable computer

US Pat. 5305244 - Filed Apr 6, 1992 - Computer Products & Services, Inc.

The **processor** circuit card, **memory** circuit card, input/output circuit card, ... but which alternatively could be **located outside** of the system unit 106 ...**Microprocessor** based computer with virtual **memory** space in overwritable **memory**

US Pat. 5511206 - Filed Feb 25, 1994 - Sony Corporation

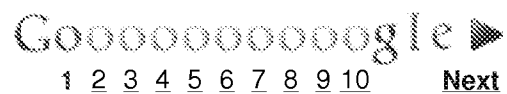

1 that a data base A and a data base B are stored in the **outside memory** 3, ... invention to provide a **microprocessor** controlled **processor** whereby the user ...**Memory** controller for a **microprocessor** for detecting a failure of ...

US Pat. 5832205 - Filed Aug 20, 1996 - Transmeta Corporation

This allows the **microprocessor** created by the com- **Processor** is further ... of the **microprocessor memory** mapped I/O and a means to eliminate **memory** which ...Digital data **processor** with high reliability

US Pat. 4654857 - Filed Aug 2, 1985 - Stratus Computer, Inc.

Either **microprocessor** can operate in the user mode or in the execu- 5 tive mode.
